  3. pressure resistance;
  4. Water resistance
3. **Application** : coffee shop, western restaurant, bar, airport, high-speed railway, desk and other public places

## Product show

## Installation procedure

1 Put the charger into the hole(Hole size 2.36inch).

2 Screw it in under the table

3 Finish installation remove the protective film

4 Put your phone on the charger start charging

### **Remark:**

Please make sure you are not using any metal case or any case that is too thick as it could interfere with wireless charging, hence remove any thick case that you have on your phone to enjoy the benefits of hassle free cordless fast / quick wireless charging.

You would also need QC 2.0 or QC 3.0 Enabled Power main adapter to utilise the functionality of fast / quick charging as using normal 1.5 to 2 amp power main adapter won't have enough power to support fast charging.

### **Application:**

hotel

Emergency control center

office
