Application:

This 90-degree snap-in style high-definition multimedia interface (HDMI) keystone coupler module (containing female connections on both sides) is ideal for customized high-quality digital audio, video, and data connections. It achieves optimal results when it is installed with any combination of audio, video, data keystone modules, faceplates, and blank patch panels.

This module provides a full range of solutions for high-quality digital audio, video and data installations. The compact 90-degree snap-in style female-to-female keystone module is also convenient for stand-alone coupling for connections between two HDMI cables.
